The Reception staff use the Interactive Learning Diary (ILD) to record your child's first year at school. We use written observations, photographs and video clips. The ILD Parent mobile app can be downloaded and has been specifically designed for you to view your child's online portfolio and to contribute in the form of text, photo and video observations from home. We will send out a letter regarding ILD in September and explain how to use this app.

The Robin Class Page on the school website shows the Twitter feed as well as all the important information for grown-ups such as PE Day, Library Book Day etc.
